DETAILED ACTION

Reasons for Allowance

1. Claims 1-20 are allowed.
2. **Examiner's Statement of Reasons for Allowance:**

Applicant(s) invention relates to a power generating system, and more specifically, to a cooling configuration for a power generating system.

The system has a housing with a cavity, and inlet and outlet for a fluid, a rotor positioned in the cavity, plurality of bearings, a heat sink for electronic component, a reaction chamber for turbine fluid, and some additional associated features, as disclosed and claimed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the combination of its functional elements, which were interpreted by the examiner in view of the disclosure, which are performing as claimed, and which examiner's search failed to find.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2834

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
